

FULLBAY + WORLDPAY INTEGRATION

Whether you're in the shop or on the side of the road, taking payments is easier than ever. Our Worldpay integration allows you to accept credit card payments right inside Fullbay. Eliminate redundant data entry and get your customers back on the road faster—no more late-night payment verification!

Our Worldpay integration allows your shop to:

- ✓ Take payment on the side of the road.
- ✓ Add new customer payment information for later use.
- ✓ Have funds available within 48 hours after payment has been processed.
- ✓ Import payment data directly into Quickbooks.
- ✓ Process payments from Apple Pay, Google Pay, swipe, chip, and tap credit cards.
- ✓ Connect physical card readers to Fullbay for in-shop sales.

What is the impact on your shop?

- ✓ Empower mobile technicians and increase uptime by processing credit card payments while off-site.
- ✓ Fewer errors in processing mobile repairs—no more telephone game with dispatch.
- ✓ No more duplicate work—payment processing information imports directly into Quickbooks.
- ✓ After integrating with Worldpay your shop will receive a free card reader.

How does it work?

- ✓ Receive payment in Fullbay as usual.
- ✓ Swipe, tap, or insert a card using a Worldpay-compatible card reader or key in card information directly into Fullbay.
- ✓ Get your money within 48 hours.

Ease of implementation—plug and play:

1. Receive authorization codes from Worldpay.
2. Enter the authorization codes in Fullbay.
3. Connect any card readers obtained from Worldpay.

You are ready to process payments!
